A Finance Option for Your Software Purchase

Dear Sir / Madam,

We work alongside Naxtech to provide a finance option for the Software solutions they sell. The benefits of using finance are:

- Spread the Cost of the software over its useful working life.
- Keep hold of your cash for running your business
- Instant Return on Investment
- VAT paid only on monthly payments
- Fixed Payments
- Settle Early
- Unsecured Lending
- Bank Lending Unaffected
- Administration taken care of

Here is a rough idea of the payments to take the finance option:

For the £795 software package finance payments will be:

- 12 monthly payments of £85
- 24 monthly payments of £45
- 36 monthly payments of £32.50
- 48 monthly payments of £25
- 60 monthly payments of £21.50

For the £1,500 software package, finance payments will be:

- 12 monthly payments of £160 per month
- 24 monthly payments of £85 per month
- 36 monthly payments of £60 per month
- 48 monthly payments of £47.50 per month
- 60 monthly payments of £40 per month

For software packages of £2,700 and above, please contact us for a quotation.

To get a finance decision, we will require your latest set of Full Accounts, that have been filed at companies house. If you are a start-up business, we can still provide finance for you, but you will need to be a home owner and a Director's Guarantee will be requested.

Finance approval is not guaranteed and is subject to underwriting. Terms of approval may vary and the above figures are for illustrative purposes only.

If you would like to get some finance in place, or if you have any questions, please contact Billy Walker on 020 3816 0396 or email billy@sourcefinanceuk.com
